SKILLS

Technologies

HTML | CSS | SASS | JAVASCRIPT

APIS | GIT | GITHUB | REACT JS

FIGMA | NPM

Soft Skills

Effective Communication | Team Work | Problem Solving

Fast Learning | Compromise | Discipline

Languages

English - IELTS B2 | German - Goethe Zertifikat A1 | Spanish - Native Language

PROJECTS

Video-Game

- Applied canvas to create a 2D video game with JavaScript.
- Illustrated the map with two-dimensional arrays for better rendering.
- Tested LocalStorage to save and display the player's record efficiently.
- Achieved the understanding of how to develop step by step the game and the logic needed.

Salary Analysis

- Resolved how to perform a salary analysis with fictitious information.
- Prepared the average, median and mode that helped me examined a salary projection per person.
- Transformed mathematics and basic statistics combined with Javascript to get useful functions.
- Allocated the information to get a salary projection by companies.

Yard Sale

- Analyzed different interactions by listening to the DOM and receive efficient actions.
- Restructured the different components of the page to build the final layout.

Omnifood

- Developed my layout and design skills with methodologies such as BEM.
- Arranged a better structuring of the page with the mobile first approach.
- Performed animations for a better flow and cleaner navigation.

EDUCATION

PLATZI

School of Web Development

Online Education Platform

January 2022 - Present

COURSES

Fundamentals of Software Engineering	Responsive Design: Mobile First Layout	Git & Github Professional Course
Definitive HTML and CSS Course	CSS (SASS-STYLUS-LESS)	Javascript (Workshops - Practical)
Closures & Scope	Asynchronism	React JS
Database Fundamentals	Figma	APIs	Terminal & Command Line
